About the Cover

The CHED RO XI remains to be steadfast in giving its stakeholders the quality service they deserved. Amidst the challenges brought about by the pandemic, there is always a silver lining to transform and find solution with better innovations. The tranquility of the ocean and the serenity of the mountain speaks for CHED RO XI as we navigate the new normal. Together with the Higher Education Institutions in the Region, we continue to hold on and optimize to endure and stride in one direction in Claiming Victories for Philippine Higher Education.

Dr. Maricar R. Casquejo, CESO III
Director IV

The Year 2021 is my third year of leading and managing the CHED RO XI. Just like the past years, this year has its fair share of challenges, constraints, and setbacks. Nonetheless, we have more stories of success and milestones as we fully implemented the three-year strategic goals I have presented to our stakeholders when I started in January 2019, and as we continue to thrive amidst the disruptions brought about by the COVID-19 Pandemic.

One of the highlights this year is the conduct of PADYAK in Davao Region. Together with CHED Chairman J. Prospero E. De Vera III and his Team, we journeyed and claimed victories for Higher Education Institutions in the Region as they championed in their efforts, initiatives in providing quality education and producing competitive graduates. Brushing aside the scorching heat of the sun and sudden outpouring of rain, the group of bikers cycled a distant road of 38.4 kilometers from the Municipality of Bansalan to Digos City to reap stories of successes of TES grantees and celebrate achievements of Higher Education Institutions in Davao Region. Our first batch of graduates who are beneficiaries of the Free Higher Education Program is produced this year. Another major celebration of victories include, the grant of Certificate of Eligibility for Free Higher Education to the Region's four out of five Local universities and Colleges, conversion of one of the SUCs to University, granting of permit to the Doctor of Medicine Program of one of our SUCs, recognition of our HEIs through the Gawad ng Parangal, successful vaccination roll out for students and personnel of HEIs, among other milestones.

Another highlight for this Year is our internal transformation towards Fourth Industrial Revolution (FIRE). Internally, CHEDRO XI's journey on transformation with FIRE takes off with our TAGLINE "We find solutions" and with this MANAGEMENT MANTRA "Walk the Talk". We believe that transformation will be easier if CHED RO XI Personnel is solution-oriented and our HEIs will readily cooperate and engage with us if we lead by example and if our stakeholders have happy and satisfied experience with us due to our seamless operations. For this Year, we have somehow started establishing the platforms in our Office led to adopting digital, which are needed in embracing the FIRE. The internal transformations of CHED RO XI is coupled with a framework that guides us in transforming our HEIs in Davao Region in embracing FIRE. It is so heartwarming to note that we were able to take off because Commissioner Lilian A. Delas Llagas, the OPSD and the OIQAG, as well as our partners such as RDC XI, with NEDA XI and DOST XI were with us. The 2021 CHEDRO XI Annual Report speaks not only of where we are now, what we have attained but also presents what we aspire as a key agency mandated to catalyze a Philippine Higher Education System that is relevant, resilient, and globally-competitive. In support to the thrusts and programs of CHED Chairman De Vera and together with the Higher Education Institutions in the Region, we continue to optimize, endure and stride in one direction to claim victory for Philippine Higher Education.

For all that was accomplished this year, I extend my sincere thanks to the highly esteemed and brilliant CHEDROXI Personnel, my Superiors and counterparts in the CHED Central Office, and our partners, for their tireless efforts and unwavering support. We hope that the success and milestones we have achieved do not end with us. We aspire that what we have started and what we are practicing become inspirations in making the bar of service excellence higher for we are blessed to be a blessing for others.

Monitoring and Evaluation of Higher Education Programs

One of the major responsibilities of the CHED Technical Division is the Monitoring and Evaluation of the programs. This has been conducted to ensure continued compliance with the Policies, Standards and Guidelines (PSGs) set forth by the Commission.

Remote Monitoring and Evaluation of Programs through Online System

Since the beginning of the term of RD Casquejo as the Regional Director in 2019, her initiatives in the digitization of records and automation of frontline services led to more innovations in both frontline and non-frontline services initiated and developed by Engr. Maria Christina B. Condez, Education Supervisor II. The Office came up with the Online System for Processing of Program Applications, as per issued Regional Memorandum No. 20 S. 2020 and the Monitoring, and Remote Evaluation of HEIs, per Memorandum from the Regional Director No. 56 S. 2021, which is an innovation to help transform the manual to online transactions for the monitoring and evaluation of programs in Davao Region. Findings on the remote monitoring and evaluation are randomly validated during face-to-face ocular inspection.
